Emergency 24/7/365
800-624-0543

Cranemasters' innovative equipment and strategic systems operations reduce railroad and industrial siding losses safely and rapidly.

Those same efficiencies keep jobs like bridge span replacement, complex track installation and repair, load adjustment and transfer, and railcar and locomotive maintenance and repair under control, predictably reducing your total cost of ownership.

Complex Track Panel Installation

Pre-fabricated Track Panel Installation: We work with customers and suppliers and install pre-assembled track panels that accelerate the installation process and minimize track downtime..

Custom Track Layouts: We work closely with clients to design and implement track solutions tailored to specific site requirements, ensuring seamless integration with existing infrastructure.

Heavy-Duty and Specialized Track Applications: Our team is equipped and experienced in handling complex track panel installations in various environments, from industrial rail yards to high-speed railway networks.

End-to-End Strategic Systems Operations

Cranemasters manages every phase of the track structure and panel installation process, ensuring seamless execution from start to finish.

- Site Assessment and Planning
- Material Procurement and Logistics
- Precision Installation
- Safety and Compliance
- Testing and Quality Assurance

Advanced Equipment and Technology

- Track Panel Lifting and Placing Machinery like Cranemasters Lift Beams.
- Full Fleet of Heavy-Duty Cranes, Hi-Rail Cranes, and Transport Vehicles

Cranemasters dismantles the old Tower 55 diamond in Fort Worth, TX, and lifts the new diamond—a massive 3x2, 126'-2" by 93'-9" 187,000-pound interlockings—and moves it in one piece in just 15 hours.

Choose Cranemasters for Your Next Complex Track Project

- Reduced Downtime
- Enhanced Installation Efficiency
- Scalability
