**Emergency 24/7/365**  
**800-624-0543**

Cranemasters' innovative equipment and strategic systems operations reduce railroad and industrial siding losses safely and rapidly.

Those same efficiencies keep jobs like bridge span replacement, complex track installation and repair, load adjustment and transfer, and railcar and locomotive maintenance and repair under control, predictably reducing your total cost of ownership.

# Adjustment and Transfer

**Load Rebalancing and Adjustment:** Proper weight distribution is crucial for safe rail transport. We analyze and adjust cargo placement to prevent instability and ensure compliance with regulations.

**Cargo Transfer and Redistribution:** We facilitate safe cargo transfer with minimal downtime if a load needs to be moved between railcars or onto different transportation modes, .

**Overweight Load Correction:** Our team swiftly addresses overweight conditions, ensuring compliance with rail weight restrictions and preventing costly fines or delays.

**Emergency Load Shifting Assistance:** In the event of sudden load shifts or accidents, we provide immediate response solutions to secure and stabilize cargo.

## Advanced Equipment and Handling Techniques

**High-Capacity Cranes and Lift Systems:** Built to handle large and heavy cargo with precision, the Cranemasters 200 RS Super-Duty Crawler Crane only needs one side of the track to complete transfers and adjustments.

**Mobile Load Transfer Units:** Enabling on-site adjustments and transfers for increased flexibility.

**Specialized Rigging and Securing Methods:** Ensuring cargo is securely repositioned or transferred with minimal risk.
